

1 March 2010

Welcome Letter to All Soldiers Assigned or Attached to 63rd EN CO and Family Members

1. I would like to take the time and Welcome you all to the 63rd Engineer Company. The “Rogue” family has a proud history and the Soldiers and Family members make the company this way.
2. The Soldiers in the 63rd Engineer Company have deployed to Afghanistan where they made a significant impact providing horizontal construction support in the region. At home, the Soldiers continually provide support to Fort Benning and the surrounding communities. We are involved in various construction projects, road repairs, and providing assistance to units throughout Fort Benning. One of our upcoming projects, the Wounded Warrior Stables Project, provides an indoor horse stables for wounded warriors. The company is actively involved in community service. We are proud volunteers at the Wynton Arts Academy, a local school in Columbus, Georgia, providing the students with leadership classes and mentorship.
3. The Family Readiness Group, headed by Mrs. Megan Stadler, has been successful. Through her guidance, the attendance at the monthly meetings has increased by more than 50 percent. There has been more participation from single Soldiers and family members than ever before.
4. Again, welcome from the “Rogue” Family.

JAMES E. ROGERS
CPT, EN
Commanding
